American Journal of Physiology: Cell Physiology

No. 1. JANUARY 1992

INVITED REVIEW

Mechanisms for intracellular distribution of mRNA: in situ hybridization studies in muscle
B. Russell and D. J. Dix C1

Exercise training, glucose transporters, and glucose transport in rat skeletal muscles
K. J. Rodnick, E. J. Henriksen, D. E. James, and J. O. Holloszy C9

Dual effects of a phorbol ester on calcium-dependent chloride secretion by T84 epithelial cells
U. Kachintorn, P. Vongkovit, M. Vajanaphanich, S. Dinh, K. E. Barrett, and K. Dharmsathaphorn C15

Hormonal regulation of Cl transport in polar airway epithelia measured by a fluorescent indicator
A. S. Verkman, A. C. Chao, and T. Hartmann C23

Reversed anion selectivity in cultured cystic fibrosis sweat duct cells
C. L. Bell, M. M. Reddy, and P. M. Quinton C32

Modulation of neutrophil activation by okadaic acid, a protein phosphatase inhibitor
D. J. Lu, A. Takai, T. L. Leto, and S. Grinstein C39

Cystine uptake and glutathione level in endothelial cells exposed to oxidative stress
K. Miura, T. Ishii, Y. Sugita, and S. Bannai C50

Transcellular transport of organic cation across monolayers of kidney epithelial cell line LLC-PK_1
H. Saito, M. Yamamoto, K.-I. Inui, and R. Hori C59

Purinergic receptor activation of Cl^- secretion in T84 cells
S. Dho, K. Stewart, and J. K. Foskett C67

Modulation of the delayed rectifier, I_K, by cadmium in cat ventricular myocytes
C. H. Follmer, N. J. Lodge, C. A. Cullinan, and T. J. Colatsky C75

Calcium-dependent inactivation of inwardly rectifying K^+ channel in a tumor mast cell line
M. Mukai, I. Kyogoku, and M. Kuno C84

Regulation of annexin I in adipogenesis: cAMP-independent action of methylisobutylxanthine
W. T. Wong, H. S. Nick, and S. C. Frost C91

Fluid transport across cultured bovine corneal endothelial cell monolayers
P. Narula, M. Xu, K. Kuang, R. Akiyama, and J. Fischbarg C98

ATP-dependent multispecific organic anion transport system in rat erythrocyte membrane vesicles
M. Heijn, R. P. J. Oude Elferink, and P. L. M. Jansen C104

Role of calcium and cAMP messenger systems in intracellular pH regulation of osteoblastic cells
J. Green and C. R. Kleeman C111

Buthionine sulfoximine-induced cytostasis does not correlate with glutathione depletion
Y.-J. Kang and M. D. Enger C122

Synergism between cAMP and ATP in signal transduction in cardiac myocytes
J.-S. Zheng, A. Christie, M. B. De Young, M. N. Levy, and A. Scarpa C128

Identification of a membrane protein from T84 cells using antibodies made against a DIDS-binding peptide
E. J. Sorscher, C. M. Fuller, R. J. Bridges, A. Tousson, R. B. Marchase, B. R. Brinkley, R. A. Frizzell, and D. J. Benos C136

Endothelin-induced calcium responses in human vascular smooth muscle cells
J. P. Gardner, G. Tokudome, H. Tomonari, E. Maher, D. Hollander, and A. Aviv C148

Corticosteroid receptors in cells derived from rat brain microvessels: mRNA identification and aldosterone binding
N. Loffreda, P. Eldin, G. Auzou, C. Frelin, and M. Claire C156

pH_i dependence of Na-H exchange and H delivery in IEC-6 cells
M. D. Sjaastad, E. Wenzl, and T. E. Machen C164

Regulation of extracellular calcium entry in endothelial cells: role of intracellular calcium pool
R. J. Dolor, L. M. Hurwitz, Z. Mirza, H. C. Strauss, and A. R. Whorton C171

Regulation of intracellular pH in single rat zona glomerulosa cells
R. M. Shepherd, G. H. Williams, and S. J. Quinn C182

Citrate alters Ca channel gating and selectivity in rabbit ventricular myocytes
L. V. Hryshko and D. M. Bers C191

Thrombin stimulates PDGF production and monocyte adhesion through distinct intracellular pathways in human endothelial cells
R. Shankar, C. A. de la Motte, and P. E. DiCorleto C199

Regulation of T84 cell monolayer permeability by insulin-like growth factors
J. A. McRoberts and N. E. Riley C207

Exercise inhibits glucocorticoid-induced glutamine synthetase expression in red skeletal muscles
M. T. Falduto, A. P. Young, and R. C. Hickson C214

Changes in pH_i associated with activation of ion secretion in avian nasal salt gland cells
T. J. Shuttleworth and C. M. Wood C221

Na current density at and away from end plates on rat fast- and slow-twitch skeletal muscle fibers
R. L. Ruff C229

$1\alpha,25\text{-}(OH)_2$ vitamin D_3 enhances expression of the genes encoding Ca^{2+}-binding proteins MRP-8 and MRP-14
A. Sellmayer, S. M. Krane, A. J. Ouellette, and J. V. Bonventre C235

SPECIAL COMMUNICATION

Synthesis of cell-impermeable Cl-sensitive fluorescent indicators with improved sensitivity and optical properties
J. Biwersi, N. Farah, Y.-X. Wang, R. Ketcham, and A. S. Verkman C243

RAPID COMMUNICATION

cAMP-activated chloride conductance in the colonic cell line, Caco-2
C. E. Bear and E. F. Reyes C251

ANNOUNCEMENTS C257

No. 2. FEBRUARY 1992

INVITED REVIEW

Investigation of cell physiology in the animal using transgenic technology
A. P. Koretsky C261

Phorbol ester inhibits granulocyte-macrophage colony-stimulating factor binding and tyrosine phosphorylation
J. Gomez-Cambronero, C.-K. Huang, M. Yamazaki, E. Wang, T. F. P. Molski, E. L. Becker, and R. I. Sha'afi C276

Metabolic response to a high-fat diet in neonatal and adult rat muscle
P. M. Nemeth, B. W. C. Rosser, R. M. Choksi, B. J. Norris, and K. M. Baker C282

Electrophysiologically distinct cell types in human sweat gland secretory coil
M. M. Reddy and P. M. Quinton C287

Progesterone increases Ca^{2+} currents in myometrial cells from immature and nonpregnant adult rats
J. M. Rendt, L. Toro, E. Stefani, and S. D. Erulkar C293

Biotin transport in microvillous membrane vesicles, cultured trophoblasts, and isolated perfused human placenta
P. I. Karl and S. E. Fisher C302

5-HT_2 receptor mRNA is overexpressed in cultured rat aortic smooth muscle cells relative to normal aorta
M. A. Corson, R. W. Alexander, and B. C. Berk C309

Relationship between intracellular pH and tension development in resting ventricular muscle and myocytes
K. W. Spitzer and J. H. B. Bridge C316

Lipid A activation of glomerular mesangial cells: mimicry of the bioactive lipid, phosphatidic acid
S. L. Bursten, W. E. Harris, K. Resch, and D. H. Lovett C328

Volume-activated calcium uptake: its role in cell volume regulation of Madin-Darby canine kidney cells
A. Rothstein and E. Mack C339

Contraction and intracellular Ca^{2+}, Na^+, and H^+ during acidosis in rat ventricular myocytes
S. M. Harrison, J. E. Frampton, E. McCall, M. R. Boyett, and C. H. Orchard C348

Hyperoxia induces alkalinization and dome formation in MDCK epithelial cells
D. Dreher and T. Rochat C358

Discriminatory effects of protein kinase inhibitors and calcium ionophore on endothelial ICAM-1 induction
C. L. Myers, S. N. Desai, J. Schembri-King, G. L. Letts, and R. W. Wallace C365

Direct evidence for a basolateral membrane Cl^- conductance in toad retinal pigment epithelium
S. Fujii, R. P. Gallemore, B. A. Hughes, and R. H. Steinberg C374

Fluid shear stress modulates cytosolic free calcium in vascular endothelial cells
J. Shen, F. W. Luscinskas, A. Connolly, C. F. Dewey, Jr., and M. A. Gimbrone, Jr. C384

Lithium increases DNA replication, polyamine content, and insulin secretion by rat pancreatic β-cells
Å. Sjöholm, N. Welsh, and C. Hellerström C391

Antibodies against the cystic fibrosis transmembrane regulator
C. M. Fuller, M. B. Howard, D. M. Bedwell, R. A. Frizzell, and D. J. Benos C396

GTPγS-dependent regulation of smooth muscle contractile elements
Y. Kubota, M. Nomura, K. E. Kamm, M. C. Mumby, and J. T. Stull C405

Characterization of myocardial Na^+-Ca^{2+} exchange in rainbow trout
G. F. Tibbits, K. D. Philipson, and H. Kashihara C411

Actions of thiocyanate and *N*-phenylmaleimide on volume-responsive Na and K transport in dog red cells
J. C. Parker and G. C. Colclasure C418

Excitation-contraction coupling in pigs heterozygous for malignant hyperthermia
E. M. Gallant and L. R. Lentz C422

Electrogenic sodium-bicarbonate cotransport in human ciliary muscle cells
F. Stahl, A. Lepple-Wienhues, M. Kuppinger, E. Tamm, and M. Wiederholt C427

Regulation of vascular endothelial cell volume by Na-K-2Cl cotransport
W. C. O'Neill and J. D. Klein C436

Regulation of hepatic protein synthesis in chronic inflammation and sepsis
T. C. Vary and S. R. Kimball C445

Differential responses of Ca-activated K channels to bradykinin in sensory neurons and F-11 cells
K. Naruse, D. S. McGehee, and G. S. Oxford C453

Detection of the tight junction-associated protein ZO-1 in astrocytes and other nonepithelial cell types
A. G. Howarth, M. R. Hughes, and B. R. Stevenson C461

Synthesis and translocation of Na^+-K^+-ATPase α- and β-subunits to plasma membrane in MDCK cells
A. K. Mircheff, J. W. Bowen, S. C. Yiu, and A. A. McDonough C470

Thyroid hormone induction of rat myocardial Na^+-K^+-ATPase: α_1-, α_2-, and β_1-mRNA and -protein levels at steady state
C. B. Hensley, K. K. Azuma, M.-J. Tang, and A. A. McDonough C484

Low molecular mass GTP-binding proteins in subcellular fractions of the pancreas: regulated phosphoryl G proteins
B. Göke, J. A. Williams, M. J. Wishart, and R. C. De Lisle C493

Whole cell patch clamping of ciliary epithelial cells during anisosmotic swelling
R. E. Yantorno, D. A. Carré, M. Coca-Prados, T. Krupin, and M. M. Civan C501

Na^+ binding to the Na^+-glucose cotransporter is potential dependent
E. Bennett and G. A. Kimmich C510

MODELING IN PHYSIOLOGY

Role of facilitated diffusion of calcium by calbindin in intestinal calcium absorption
J. J. Feher, C. S. Fullmer, and R. H. Wasserman C517

RAPID COMMUNICATIONS

Enhancement of glucose transport in response to inhibition of oxidative metabolism: pre- and posttranslational mechanisms
M. Shetty, J. N. Loeb, and F. Ismail-Beigi C527

Role of G proteins in stimulation of Na-H exchange by cell shrinkage
B. A. Davis, E. M. Hogan, and W. F. Boron C533

No. 3. MARCH 1992

INVITED REVIEW

Substance P: a late-acting B lymphocyte differentiation cofactor
K. L. Bost and D. W. Pascual C537

Hypoxia-induced increased permeability of endothelial monolayers occurs through lowering of cellular cAMP levels
S. Ogawa, S. Koga, K. Kuwabara, J. Brett, B. Morrow, S. A. Morris, J. P. Bilezikian, S. C. Silverstein, and D. Stern C546

T84 cells: anion selectivity demonstrates expression of Cl^- conductance affected in cystic fibrosis
C. L. Bell and P. M. Quinton C555

Juxtaglomerular cells cultured on a reconstituted basement membrane
B. M. Rayson C563

Distribution of actin filament lengths measured by fluorescence microscopy
S. Burlacu, P. A. Janmey, and J. Borejdo C569

EGF is incomplete mitogen in porcine aortic smooth muscle cells: DNA synthesis without cell division
S. P. Bagby, M. M. O'Reilly, E. A. Kirk, L. H. Mitchell, P. E. Stenberg, M. T. Makler, and A. C. Bakke C578

Calcium oscillations in freshly dispersed and cultured interstitial cells from canine colon
N. G. Publicover, N. N. Horowitz, and K. M. Sanders C589

Calcium channels and control of cytosolic calcium in rat and bovine zona glomerulosa cells
S. J. Quinn, U. Brauneis, D. L. Tillotson, M. C. Cornwall, and G. H. Williams C598

Differential expression of SM1 and SM2 myosin isoforms in cultured vascular smooth muscle
P. Babij, S. Kawamoto, S. White, R. S. Adelstein, and M. Periasamy C607

Regulation of sarcoplasmic reticulum gene expression during cardiac and skeletal muscle development
M. Arai, K. Otsu, D. H. MacLennan, and M. Periasamy C614

L-type Ca^{2+} channel desensitization by F^- reduces PhE-induced increase in $[Ca^{2+}]_i$ but not stress
P. H. Ratz and F. A. Lattanzio C621

Intracellular Ca^{2+} concentration and pH_i during metabolic inhibition
H. Hayashi, H. Miyata, N. Noda, A. Kobayashi, M. Hirano, T. Kawai, and N. Yamazaki C628

P_2 purinergic receptors and cellular calcium metabolism in A 431 human epidermoid carcinoma cells
K. Hosoi, M. Fujishita, K. Sugita, K. Kurihara, T. Atsumi, T. Murai, and T. Ueha C635

Effects of bradykinin on Na^+ and Cl^- transport in human nasal epithelium
L. L. Clarke, A. M. Paradiso, S. J. Mason, and R. C. Boucher C644

Calcium oscillations in parotid acinar cells induced by microsomal Ca^{2+}-ATPase inhibition
J. K. Foskett and D. Wong C656

Sarcolemmal Na^+-K^+-ATPase activity in congestive heart failure due to myocardial infarction
I. M. C. Dixon, T. Hata, and N. S. Dhalla C664

ADH-induced depolymerization of F-actin in the toad bladder granular cell: a confocal microscope study
K. Holmgren, K.-E. Magnusson, N. Franki, and R. M. Hays C672

Potassium channel block does not affect metabolic responses of brown fat cells
P. A. Pappone and M. T. Lucero C678

Regulation of glucose transport and GLUT1 glucose transporter expression by O_2 in muscle cells in culture
N. Bashan, E. Burdett, H. S. Hundal, and A. Klip C682

Regulation of calcium current by voltage and cytoplasmic calcium in canine gastric smooth muscle
F. Vogalis, N. G. Publicover, and K. M. Sanders C691

Inhibition by sodium nitroprusside or PGE_1 of tyrosine phosphorylation induced in platelets by thrombin or ADP
A. Oda, B. J. Druker, M. Smith, and E. W. Salzman C701

U46619, a thromboxane A_2 agonist, inhibits K_{Ca} channel activity from pig coronary artery
F. S. Scornik and L. Toro C708

Factors affecting movement of F-actin filaments propelled by skeletal muscle heavy meromyosin
E. Homsher, F. Wang, and J. R. Sellers C714

Tetrodotoxin-insensitive sodium channels in a cardiac cell line from a transgenic mouse
A. Sculptoreanu, M. Morton, C. L. Gartside, S. D. Hauschka, W. A. Catterall, and T. Scheuer C724

Spontaneous and propagated calcium release in isolated cardiac myocytes viewed by confocal microscopy
D. A. Williams, L. M. Delbridge, S. H. Cody, P. J. Harris, and T. O. Morgan C731

Phylogenetic conservation of isoform-specific regions within α-subnit of Na^+-K^+-ATPase
T. A. Pressley C743

Regulated endocytosis in a chloride secretory epithelial cell line
N. A. Bradbury, T. Jilling, K. L. Kirk, and R. J. Bridges C752

Triggering by ATP of product release by mucous granules of the land slug *Ariolimax columbianus*
I. Deyrup-Olsen, H. Louie, A. W. Martin, and D. L. Luchtel C760

Recovery from exercise-induced desaturation in the quadriceps muscles of elite competitive rowers
B. Chance, M. T. Dait, C. Zhang, T. Hamaoka, and F. Hagerman C766

Kidney aldose reductase gene transcription is osmotically regulated
F. L. Smardo, Jr., M. B. Burg, and A. Garcia-Perez C776

cAMP-stimulated ion currents in *Xenopus* oocytes expressing CFTR cRNA
S. A. Cunningham, R. T. Worrell, D. J. Benos, and R. A. Frizzell C783

Transport and binding in calcium uptake by microvillous membrane of human placenta
S. G. Kamath, L. K. Kelley, A. F. Friedman, and C. H. Smith C789

RAPID COMMUNICATION

Human intestinal glucose transporter expression and localization of GLUT5
N. O. Davidson, A. M. L. Hausman, C. A. Ifkovits, J. B. Buse, G. W. Gould, C. F. Burant, and G. I. Bell C795

ANNOUNCEMENTS C801

No. 4. APRIL 1992

INVITED REVIEW

Chemical probes for anion transporters of mammalian cell membranes
Z. I. Cabantchik and R. Greger C803

Interleukin-1β alters actin expression and inhibits contraction of rat thoracic aorta
L. A. Trinkle, D. Beasley, and R. S. Moreland C828

Amino acid transport by the cultured human placental trophoblast: effect of insulin on AIB transport
P. I. Karl, K. L. Alpy, and S. E. Fisher C834

Effect of adenosine A_1 and A_2 agonists and antagonists on cAMP and Ca^{2+} in cultured rat mesangial cells
A. Olivera, M. Tomás, and J. M. López-Novoa C840

Regulation of Na^+-K^+-ATPase expression in cultured renal cells by incubation in hypertonic medium
J. W. Bowen C845

Transcriptional regulation of the endothelin-1 gene by TNF-α
P. A. Marsden and B. M. Brenner C854

Staurosporine decreases stiffness but not stress in endothelin-1-stimulated arterial muscle
R. S. Moreland, J. Cilea, and S. Moreland C862

N-methyl-D-aspartate increases cytosolic Ca^{2+} via G proteins in cultured hippocampal neurons
K. Harada, T. Yoshimura, K. Nakajima, H. Ito, Y. Ebina, and R. Shingai C870

Regulation of macrophage colony-stimulating factor in liver fat-storing cells by peptide growth factors
M. Pinzani, H. E. Abboud, L. Gesualdo, and S. L. Abboud C876

Direct role for potassium channel inhibition in hypoxic pulmonary vasoconstriction
J. M. Post, J. R. Hume, S. L. Archer, and E. K. Weir C882

Evidence of two distinct epithelial cell types in primary cultures from human sweat gland secretory coil
M. M. Reddy, C. L. Bell, and P. M. Quinton C891

Sodium-independent effect of aldosterone on initial rate of ouabain binding in A6 cells
A. M. Pellanda, H. P. Gaeggeler, J. D. Horisberger, and B. C. Rossier C899

Binding and aggregation of pro-atrial natriuretic factor by calcium
G. Thibault and A. F. Doubell C907

Lymphocyte adhesion can be regulated by cytoskeleton-associated, PMA-induced capping of surface receptors
D. M. Haverstick, H. Sakai, and L. S. Gray C916

Growth factors downregulate vascular smooth muscle thromboxane receptors independent of cell growth
G. W. Dorn II and M. W. Becker C927

ATP activates a cation-permeable pathway in rat parotid acinar cells
S. P. Soltoff, M. K. McMillian, and B. R. Talamo C934

Activation of multiple mechanisms including phospholipase D by endothelin-1 in rat aorta
Y. Liu, B. Geisbuhler, and A. W. Jones C941

Effect of protein kinase C inhibitors on Cl^- conductance required for volume regulation after L-alanine cotransport
R. J. MacLeod, P. Lembessis, and J. R. Hamilton C950

Changes in cyclic strain increase inositol trisphosphate and diacylglycerol in endothelial cells
O. R. Rosales and B. E. Sumpio C956

Plasma membrane Na^+-H^+ antiporter and H^+-ATPase in the medullary thick ascending limb of rat kidney
M. Froissart, P. Borensztein, P. Houillier, F. Leviel, J. Poggioli, E. Marty, M. Bichara, and M. Paillard C963

Effect of trypsin on a Ca^{2+}-activated K^+ channel reconstituted into planar phospholipid bilayers
L. Salomao, G. Wark, W. P. Dubinsky, and S. G. Schultz C971

Effect of low glycogen on carbohydrate and energy metabolism in human muscle during exercise
M. K. Spencer, Z. Yan, and A. Katz C975

Relaxation abnormalities in single cardiac myocytes from renovascular hypertensive rats
R. V. Yelamarty, R. L. Moore, F. T. S. Yu, M. Elensky, A. M. Semanchick, and J. Y. Cheung C980

Regulation of response to thromboxane A_2 in CHRF-288 megakaryocytic cells
G. W. Dorn II C991

Na-K-Cl cotransport in the shark rectal gland. I. Regulation in the intact perfused gland
B. Forbush III, M. Haas, and C. Lytle C1000

Na-K-Cl cotransport in the shark rectal gland. II. Regulation in isolated tubules
C. Lytle and B. Forbush III C1009

Morphometric-stereologic analysis of brown adipocyte differentiation in adult mice
F. Goglia, A. Géloën, A. Lanni, Y. Minaire, and L. J. Bukowiecki C1018

Intracellular pH modulates cytosolic free magnesium in cultured chicken heart cells
C. C. Freudenrich, E. Murphy, L. A. Levy, R. E. London, and M. Lieberman C1024

Stress-induced alterations in autophagic pathway: relationship to ubiquitin system
A. L. Schwartz, R. A. Brandt, H. Geuze, and A. Ciechanover C1031

Contraction of glycerinated rabbit slow-twitch muscle fibers as a function of MgATP concentration
E. Pate, M. Lin, K. Franks-Skiba, and R. Cooke C1039

Transmembrane gradients of free Na^+ in isolated heart mitochondria estimated using a fluorescent probe
D. W. Jung, L. M. Apel, and G. P. Brierley C1047

Cell swelling increases membrane conductance of canine cardiac cells: evidence for a volume-sensitive Cl channel
G.-N. Tseng C1056

Cloning, sequencing, and expression of Na^+-H^+ antiporter cDNAs from human tissues
K. Takaichi, D. Wang, D. F. Balkovetz, and D. G. Warnock C1069

Association between synthesis and release of cGMP and nitric oxide biosynthesis by hepatocytes
T. R. Billiar, R. D. Curran, B. G. Harbrecht, J. Stadler, D. L. Williams, J. B. Ochoa, M. Di Silvio, R. L. Simmons, and S. A. Murray C1077

RAPID COMMUNICATIONS

Stretch-activated single-channel and whole cell currents in vascular smooth muscle cells
M. J. Davis, J. A. Donovitz, and J. D. Hood C1083

Basolateral Na-H antiporter: uncoupled Na transport produces an amiloride-sensitive conductance
M. A. Post and D. C. Dawson C1089

No. 5. MAY 1992

INVITED REVIEW

Precontact mammalian sperm-egg communication and role in fertilization
M. Eisenbach and D. Ralt C1095

Alterations in lipolytic activity at hepatic subcellular sites of fed and fasted rats
D. Fu and C. A. Hornick C1102

Water and nonelectrolyte permeabilities of apical membranes of toad urinary bladder granular cells
E. B. Grossman, H. W. Harris, Jr., R. A. Star, and M. L. Zeidel C1109

Localization and differential expression of two isoforms of the tight junction protein ZO-1
E. Willott, M. S. Balda, M. Heintzelman, B. Jameson, and J. M. Anderson C1119

Regulation of agonist-evoked $[Ca^{2+}]_i$ oscillation by intracellular Ca^{2+} and Ba^{2+} in AR42J cells
B.-X. Zhang, H. Zhao, P. A. Loessberg, and S. Muallem C1125

Atrial natriuretic peptide receptor subtypes in rat neuronal and astrocyte glial cultures
C. Sumners and W. Tang C1134

Discoordinate hormonal and ontogenetic regulation of four rat serpin genes
S. J. Schwarzenberg, J.-B. Yoon, S. Seelig, C. J. Potter, and S. A. Berry C1144

A discrete Na-Ca exchange-dependent Ca compartment in rat ventricular cells: exchange and localization
G. A. Langer and T. L. Rich C1149

cAMP-activated Cl channels in CFTR-transfected cystic fibrosis pancreatic epithelial cells
W. H. Cliff, R. A. Schoumacher, and R. A. Frizzell C1154

Verapamil blocks basolateral K^+ channels in the larval frog skin
S. D. Hillyard and W. Van Driessche C1161

Chloride is required for fluid transport by the rabbit corneal endothelium
B. S. Winkler, M. V. Riley, M. I. Peters, and F. J. Williams C1167

Ethanol metabolism and inhibition of nucleoside uptake lead to increased extracellular adenosine in hepatocytes
L. E. Nagy C1175

Altered coupling of α_1-adrenergic receptor-G protein in rat parotid during aging
A. Miyamoto, R. Villalobos-Molina, M. A. Kowatch, and G. S. Roth C1181

Active transport of dopamine in human placental brush-border membrane vesicles
S. Ramamoorthy, F. H. Leibach, V. B. Mahesh, and V. Ganapathy C1189

Signal transduction by the erythropoietin receptor: evidence for the activation of phospholipases A_2 and C
M. Mason-Garcia, S. Clejan, J.-S. Tou, and B. S. Beckman C1197

Phorbol ester inhibits erythropoietin production in human hepatoma cells (Hep G2)
A. Kurtz, K.-U. Eckardt, C. Pugh, P. Corvol, D. Fabbro, and P. Ratcliffe C1204

Activation of protein kinase C reduces L-type calcium channel activity of GH_3 pituitary cells
A. A. Haymes, Y. W. Kwan, J. P. Arena, R. S. Kass, and P. M. Hinkle C1211

ATP-sensitive potassium channel is essential to maintain basal coronary vascular tone in vivo
F. F. Samaha, F. W. Heineman, C. Ince, J. Fleming, and R. S. Balaban C1220

Immunocytochemical and functional characterization of Na^+ conductance in adult alveolar pneumocytes
S. Matalon, K. L. Kirk, J. K. Bubien, Y. Oh, P. Hu, G. Yue, R. Shoemaker, E. J. Cragoe, Jr., and D. J. Benos C1228

Kinetics of force generation and phosphate release in skinned rabbit soleus muscle fibers
N. C. Millar and E. Homsher C1239

Coupling and connexin 43 expression in microvascular and large vessel endothelial cells
M. S. Pepper, R. Montesano, A. El Aoumari, D. Gros, L. Orci, and P. Meda C1246

Thapsigargin stimulates Ca^{2+} entry in vascular smooth muscle cells: nicardipine-sensitive and -insensitive pathways
Y.-T. Xuan, O.-L. Wang, and A. R. Whorton C1258

Developmental increases in the inwardly rectifying potassium current of rat ventricular myocytes
G. M. Wahler C1266

Alternate pathways for chloride conductance activation in normal and cystic fibrosis airway epithelial cells
H.-C. Chan, J. Goldstein, and D. J. Nelson C1273

Appearance of α_1-adrenergic receptors in soleus muscles from SHR
J. G. Pickar, S. D. Gray, and R. C. Carlsen C1284

^{23}Na-NMR study of cation cotransport in human red blood cells
M. Cacciafesta, V. Marigliano, C. Ferri, G. Piccirillo, A. Scuteri, L. Guidoni, A. M. Luciani, A. Rosi, and V. Viti C1292

Mitochondrial ATP-synthase activity in cardiomyocytes after aerobic-anaerobic metabolic transition
T. Noll, A. Koop, and H. M. Piper C1297

cGMP-dependent protein kinase regulation of a chloride channel in T84 cells
M. Lin, A. C. Nairn, and S. E. Guggino C1304

Goblet cell degranulation in isolated canine tracheal epithelium: response to exogenous ATP, ADP, and adenosine
C. W. Davis, M. L. Dowell, M. Lethem, and M. Van Scott C1313

SPECIAL COMMUNICATION

Calibration of ion-selective microelectrodes
T. L. Croxton and W. M. Armstrong C1324

RAPID COMMUNICATION

Characterization of a delayed rectifier potassium current in chicken growth plate chondrocytes
K. B. Walsh, S. D. Cannon, and R. E. Wuthier C1335

No. 6. JUNE 1992

INVITED REVIEW

Gangliosides as modulators of cell function
C. B. Zeller and R. B. Marchase C1341

Ca^{2+}/calmodulin regulation of putrescine uptake in cultured gastrointestinal epithelial cells
G. E. Groblewski, P. T. Hargittai, and E. R. Seidel C1356

Activated neutrophils inhibit Na^+-K^+-ATPase in canine renal basolateral membrane
C. M. Julin, J. J. Zimmerman, V. Sundaram, and M. C. Chobanian C1364

Erythrocytes from magnesium-deficient hamsters display an enhanced susceptibility to oxidative stress
